Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) Industry funds under management includes money invested in the underlying funds in which funds of funds invest, but excludes money invested in funds of funds themselves (other than funds of overseas funds) to avoid double-counting.

(3) ISA figures are based on information from fund managers and five fund platforms that provide data to the Investment Association. These are AEGON, Fidelity, Hargreaves Lansdown, Quilter and Transact. The figures do not include business through other ISA providers such as wealth managers.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) Industry funds under management includes money invested in the underlying funds in which funds of funds invest, but excludes money invested in funds of funds themselves (other then funds of overseas funds) to avoid double-counting.

(3) These figures include double-counting of investments through FOFs - assets are counted first when invested in a FOF and then when FOF invests in other funds. This gives the best indicator available of the asset breakdown of investors' choices since the Investment Association cannot identify FOFs holdings of funds. Asset types (Equity, Fixed Income, etc) are defined in terms of the Investment Association sectors included. See Table 6 for a listing of the Investment Association sectors allocated to each asset class.

(4) From March 2014, the FUM of mixed asset funds is reduced and the FUM of other funds is increased due to funds re-classified from the Investment Association Mixed Asset sectors to the Investment Association (5) Prior to January 2012 data is presented according to FUM in UK Domiciled funds.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received. (2) All sales and repurchases of funds of funds are included. To avoid double counting, transactions between funds of funds and their underlying funds are excluded from January 2010. (3) Prior to January 2012 data is presented according to Net Sales for UK Domiciled funds.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) All sales and repurchases of funds of funds are included. To avoid double counting, transactions between funds of funds and their underlying funds are excluded from January 2010.
 (3) The 'Other' Asset Class includes funds from the 'Targeted Absolute Return' and 'Volatility Managed' Sectors which, together, contribute to the overwhelming majority of the Net Retail Sales within the asset class.
 (4) Regional Equities total does not match the Equity NRS total as Unclassified and Unallocated equity funds are not allocated a region.

Notes: (1) All sales and repurchases of funds of funds are included. To avoid double counting, transactions between funds of funds and their underlying funds are excluded. (2) The Specialist and Unclassified Sectors are split across asset classes and so have multiple entries in the above table. (3) Unallocated funds have been grouped by asset class and included in the above table to provide a complete breakdown by asset class.

Notes:

 (1) Direct includes sales through a sales force or tied agents and private client sales of own funds.
 (2) Transactions made through insurance companies (whether in-house or third party) are not included here as they are counted as institutional.
 (3) All sales and repurchases of funds of funds are included. To avoid double counting, transactions between funds of funds and their underlying funds are excluded.
 (4) Sales and re-purchases reported here differ from those in Table 11 as the figures in Table 11 cover five of the largest platforms whereas the figures in this table cover all platforms. There are also differences in reporting between platforms and fund companies.

Notes:

(1) Figures are based on information provided to the Investment Association by five fund platforms - AEGON, Fidelity, Hargreaves Lansdown, Quilter and Transact. These five platforms accounted for 72% of fund manager gross sales through all fund platforms in 2014. Figures for Hargreaves Lansdown for October 2021 to February 2022 are the Investment Association estimates.

(2) Figures are for Authorised Investment Funds including include Funds of Funds. Investment trusts and ETFs are not included. (3) Figures in this table include a small number of funds - estimated at 11.2% of platform funds under administration at end February 2022 - not included in IA fund statistics because no data is received from fund companies.

(4) Figures for 2008 and 2009 include some Investment Association estimates where full figures were not available for all participating platforms.

(5) Data is presented on a UK domicile basis.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) IA data on responsible investments has been collected using the IA's Responsible Investment Framework. Responsible investment incorporates firm-level and fund-level components. The data presented here is at the fund level where funds are pursuing one or more of the following responsible investment approaches and this approach is referenced in the fund documentation: exclusions; sustainability focus; impact investing.

(3) Tracker funds aim to mirror the progress of stock market index, e.g. the FTSE 100, by buying and selling shares in the same productions are represented on the index. These are also sometimes called index (tracker) funds or passive managed funds.

(4) Funds under management in tracker and responsible investment funds include money invested in tracker and responsible investment by funds of funds that are themselves tracker and responsible investment funds, but exclude money invested in these funds of funds themselves (other than funds of overseas funds) to avoid double-counting. Retail sales figures include sales of tracker and responsible investment funds of funds.
